

GROWTH HAS NO LIMITS >

Since its inception in 1970, Al Sulaimi Group Holding has expanded rapidly to cover a spectrum of industries and services.

Our activities offer engineering and industrial solutions in oil and gas, welding and cutting, fire, safety & security systems, automotive workshops, industrial and construction equipments, NDT inspection, metal fabrication yard, maintenance and repair workshops, besides providing expertise in executing infrastructure projects of water and wastewater industries and disseminating leading desalination technologies.

As one of the leading groups, we are committed to facilitating growth and providing customer satisfaction for over four decades.

VISION

To develop long-term relationships with our customers through complete customer satisfaction. To be the partner of choice by providing high quality products and services in a time-bound manner by understanding the client needs and executing projects effectively and efficiently.

MISSION

To retain and reinforce our market-leader position and meet the aspirations of our clients in Oman. This will be achieved through time-bound zero defect supply supported by responsive service and empowered employees.

EXPERTISE YOU CAN RELY ON

Our core team of professionals, experienced engineers and technicians, is supported by a professional team of financial consultants and accounting experts. Our market presence and reputation, over the years, is a testimony to our expertise, which you can rely on.

OUR PROMISE

All our products come with an assurance of unmatched, superior after-sales service. All systems are backed by our skilled service and support teams who are available to ensure hassle-free operations.

CHAIRMAN'S MESSAGE

“Commitment and passion
is the key to success”

Hamed Bin Mansoor Al Sulaimi

Al Sulaimi Group Holding is a success story over many decades. This story began with my father's vision, who felt that the Omani renaissance, rekindled by His Majesty Sultan Qaboos Bin Said, needed a different set of ideas and approaches and thus Al Sulaimi Group Holding was born.

The environment in which we operate, the people we serve, and our human capital have influenced our development. Technology, automated or manual has always been the engine for sustainable growth. History, far and recent provides sufficient evidence to this premise.

Our primary commitment is to our customers. Our belief in the empowerment of our staff compliments our sense of responsibility towards meeting our customers' expectations. This has created a seamless fabric of dedication and responsibility that has extended to the society as a whole. With our customers' patronage, our suppliers' support and our staff diligence this story will continue for many decades.

الشركة الفنية التجارية ش.م.م
Technical Trading Co. LLC

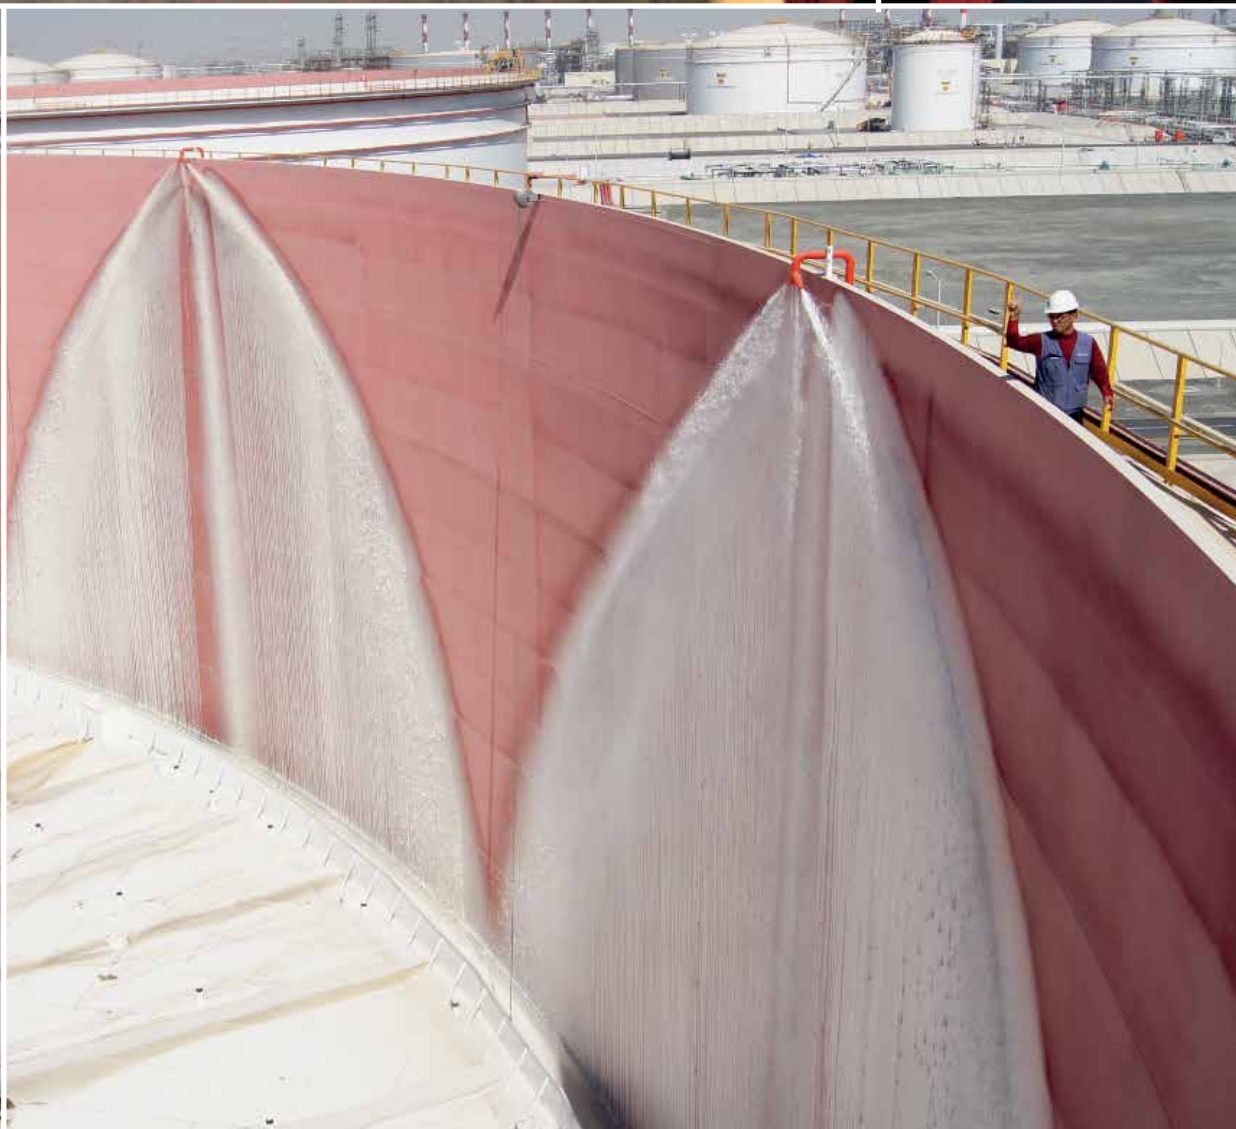

Technical Trading Co. LLC

Technical Trading Co. LLC commenced operations in 1970 with marketing and service facilities in Muscat, Sultanate of Oman with branches in Sohar, Salalah and Nizwa. TTC is a leading engineering and industrial products marketing organization, catering to diverse industries in Oman, it is the flagship company of Al Sulaimi Group Holding. It has built a reputation for quality and commitment to serve customers with the latest technologies and products. TTC is ISO 9001:2008 certified by Guardian Independent Certification under UKAS accreditation.

Fire, Safety & Security Division

Was established in the year 1970 and since then has been protecting people and property in Oman. It has the widest product range and represents some of the world's most reputed manufacturers in Oman. The product range includes fire protection systems for building services in Oil & Gas, Petrochemical, Power, Industrial, Commercial, Infrastructural Project; Professional Fire Brigade Products and Safety Products for HSE Markets. Over the years, the division is known for introducing innovative and technologically advanced fire & safety products in Oman. The division is Specialist Contractor providing Engineered, Intelligent, and Integrated Solutions of Fire Protection Systems. All Known Fire Risks and market segments are being covered and it has to its credit Oman's first ISO 9001:2008 Accredited Service Centre providing Maintenance and Servicing of Fire Protection Systems & Equipment and Safety and Rescue Equipment. It has modern fully equipped service centre with a team of qualified, experienced and well trained engineers and technicians to provide Annual Maintenance Contract and Period Service Jobs.

Automotive & Industrial Equipment Division

Established in 1985, supplies world renowned brands in the field and is committed to quality after-sales service. Over the years, it has carved a niche for itself as a nerve centre for developing modern, medium to large size garages in the Sultanate. It is a one-stop shop for all air compressor and material handling needs, including reciprocating air compressors, electric / diesel driven screw-type air compressors and electric power generators.

Welding Division

Caters to the pipeline industry, steel fabrication and maintenance companies dealing in welding, cutting, surface preparation products, machine and hydraulic tools. The division represents several premium brands like Lincoln Electric, Hypertherm, EH Wachs, Graco, and Ajax.

Welding Repair, Maintenance & Services Division

Was established more than a decade back with an outlook to serve the industry to fight wear and tear problems and establish friendly metal fusion processes and systems. They are well equipped with all types of welding services solutions, CNC Water Jet cutting solutions, CNC Plasma citing solutions and also take up on site repair services to serve the industry better.

Ceiling & Partition Division

Is committed to provide exceptional service to an ever expanding construction industry in the Sultanate of Oman. The ongoing purpose is to meet and exceed the expectations of existing clientele and develop new and long lasting relationships for the future. The division has skilled people in all areas to perform plasterboard ceilings installations, metal and mineral fibre ceiling tiles, strip & acoustical ceiling, fire rated systems, drywall partitions systems, steel frame system light gauge framing, EIFS work, and other interior finish items. The division provides contracting solutions for a wide interior environment including Government, Business, Health Care, Hospitality, Retail & Educational projects. The division offers competitive rates of various products from Boral, Gyproc, AMF Knauff, USG, Knauff, Fermacell, Gypsemna, National Gypsum, OWA, USG, Everest, Sigma, CMC, Ram Metal, Cartel, Hadley, Saudi Rockwool & KIM Co.

Elevator and AC MEP Service and Maintenance Division

Deals with supply, installation, maintenance and modernization of various brands of elevators, escalators, moving walks and dumbwaiters. The division also undertakes service and maintenance of all types of AC and Refrigeration equipment, not limited to Window AC; Split AC; Package AC, Fan Coil Units, Air Handling Units; Chillers and other commercial and industrial Air conditioning and Refrigeration equipment.

Equipment Rental Division

Was primarily established to cater to the customers' short term rental needs and to help our customers achieve their objectives by delivering and supporting quick, practical and cost effective solutions to their requirements. The division provides rental services of products including DIESEL GENERATORS, Compressors with Accessories, Welding Machines for all applications, Tower Lights, Load Testing services, API Standard Double Bunded Fuel Tanks besides additional Turnkey solutions like Installation & Commissioning, Fuel Management and Overhauling and Maintenance services for all brands of Diesel Generators. The division also markets Motorol oil catering to the oil requirements for various projects.

Specialized Project Division

(SPD) was established with a vision to provide "Energy Efficient" special Heating, ventilation air-conditioning solution's (HVAC) and world class service experience to commercial, residential and industrial sector. Multinational, dedicated teams of engineers are specialized in providing design and execution solutions in central air-conditioning. We provide trading and contracting solutions for a wide HVAC requirement for Government, Corporate, Health care, Hospitality, Retail, Shopping malls, clean rooms and Education projects. We are constantly challenged to meet deadlines and we deliver successful projects. Our professional approach and organization skills enable us to achieve these challenges.

SPD also provides Toshiba Medical systems pioneer in the fields of Ultrasound, Computed Tomography, Magnetic Resonance Imaging and X-ray.

AREA OF EXPERTISE.

- Expertise in providing complete clean room solutions for hospitals, laboratories, and pharmaceutical companies.
- Expertise in design and executing central air-conditioning projects.
- Expertise in providing the total HVAC solution for comfort cooling for residential and commercial segments.
- Radiology Department.
- Central Sterilization Department (CSSD)
- Operation theatre Equipments
- NICU and other Critical care areas.
- Ward equipment's and Hospital furniture's.
- Consumables and Accessories etc.

شركة المنصور الدولية ش.م.م.
Al Mansoor International Co. LLC

Al Mansoor International Company LLC

(AMI), established in 1992, provides expertise in executing water supply contracts and solutions to manage advanced technologies in the water sector. AMI aims to win and keep customer confidence by delivering high standards of services in the sector. AMI is also committed to providing employment opportunities to the local Omani work force by recruiting more nationals and imparting them training to do the job efficiently. AMI contracting policy is based on constant promotion of self-initiative and creativity. A qualified and experienced staff with a great sense of responsibility, team spirit, and motivation is a result of intense on-the-job training.

OPERATIONS & MAINTENANCE

Geographical diversity, project complication, and public nature of these works make the industry exceptionally challenging and demands a high level of technical expertise. We possess the ingenuity and experience required to surpass all the challenges and successfully undertake any project imaginable.

CONSTRUCTION

For over a quarter century, AMI has delivered some of the country's most significant and technically challenging projects. AMI has the expertise to develop unique solutions and successfully engage diverse stakeholder groups on complex public works projects to deliver.

OTHER SERVICES

AMI proficiency does not end with construction and operations / maintenance jobs. It extends to more verticals like the development of well fields and irrigation networks. Through these, AMI plays a key role in the agricultural sector of Oman.

Hi-Tech Inspection Services LLC

Hi-Tech Inspection Services LLC, a subsidiary of Al Sulaimi Group Holding, is a one-stop solution in Oman for Inspection & Integrity Management Service industry. It offers all kinds of NDT inspection in Oil & Gas, petrochemical, power and mechanical construction, steel structures etc. It also gives unlimited services in Lifting Inspection, PWHT & associated Heat Treatment services, Remote Flare Inspection (Aerial Inspection and Land Surveying) Welding & Coating Inspection, Rope Access Surveys, Training and Consultancy, Integrity Study Services etc.

Hi-Tech has a proven track record of managing multimillion Omani Rial projects including the biggest inspection services contract in Oman. The management of Hi-Tech and its technical assets give an outstanding quality deliverable, meeting all corporate and client safety requirements.

ASSETS

- 600 Multi Disciplined Inspection Personnel out of 650 employees
- Certified to ISO 9001 & OSHAS 18001
- Certified Plant Inspectors –API 510,653,570 & API 580
- Certified RBI Engineers
- Certified and Extensively Experienced ASNT / ACCP / PCN Level IIIs
- The Welding Institute UK & American Welding Society
- Certified Senior Welding Inspectors
- NACE Certified Painting & Coating Inspectors, CIP Level II
- Incident & Accident Investigators
- Third Party Technical Auditors
- LEEA Certified Lifting Engineers
- Specially Trained RBI Engineers (Shell Methodology)
- Pipe Line Integrity Engineers
- Radiation Protection Supervisors & Officers (Certified in Atomic Research Centres)
- Project Managers certified to PMP
- Rope Access (IRATA) Certified Inspectors and Crew
- ISO Lead Auditor Consultants

SERVICES

- Conventional NDT Services such as UT, RT, MT, PT, VT
- Automated Ultrasonic Inspection- P Scan, B- Scan & C-Scan
- Time off Flight Ultrasonic Inspection (TOFD)
- MFL Inspection Services for Tank and Piping
- Long Range Ultrasonic Inspection (LRUT)
- Thermal Infrared Inspection
- Phased Array Ultrasonic Inspection
- Advanced Visual Inspection & Boroscope Inspection
- Eddy Current Inspection
- Tube Inspection with MFI or Internal Rotary Inspection (IRIS)
- Rope Access Survey & Inspection
- Lifting Inspection
- Risk Based Inspection Services
- Integrity Assessment for Tank And Equipment
- Fitness For Service Assessment (FFS)
- Training on NDT & API Plant Inspection (In-House and External)
- R & D for developing inspection methodology for complex geometrical structures and limited Access to conventional NDT
- Heat Treatment & PWHT Services
- Positive Material Identification (PMI)
- Third-party Technical Audits for NDT, Inspection, Radiation Safety Training
- Inspection Survey Via Remote Operated Vehicles
- Custom Build Application for Inspection Data Management
- With its highly skilled management and commitment of assets, Hi-Tech has been recognized as the prime choice for any advanced inspection in the Sultanate of Oman.

Advanced Oilfield Technology Co. LLC is an Oman based, ISO 9001:2008, ASME (American Society of Mechanical Engineers), NB (National Board) and API (American Petroleum Institute) certified company, catering to the oil and gas, power, water supply, marine and defence industries in Oman and the Middle East.

AOTC has a dedicated and well equipped ASME (S, U & PP licensed), NB (R) & PDO certified manufacturing facility for specialized engineering and fabrication works apart from a certified Manufacture, Remanufacture, Repair and Maintenance (MRRM) engineering facility in Muscat with API 5CT, 6A,6D & 7-1 certification for manufacturing of valves, casing and tubing crossovers, pup joints and accessories.

AOTC Products and Services:

FABRICATION SERVICES

Fabrication of pressure vessels, boilers, storage tanks, flare and exhaust stacks, all types of skid mounted units, silos, piping, pipe rack structures and pipe supports along with site installation, erection, commissioning and refurbishment of mechanical equipment.

MAINTENANCE SERVICES

- Machine shop services, thermal metal spray services (ARC & HVOF) and Manufacturing & supply of API products.
- Mechanical repair services such as testing and calibration of pumps, blowers, compressors and generators, Overhauling & refurbishment services, dynamic balancing, heat exchanger maintenance services.
- Onsite services like flange facing, bolt torquing & tensioning, cold cutting, hot tapping, vibration monitoring & analysis, helium & hydro testing of pipelines, online leak sealing and tank cleaning.

VALVES & INSTRUMENTATION SOLUTIONS

Overhauling, testing, calibration and certification of all types of valves, installation of IRB panels and total turnkey automation solutions for plants.

POLYMERIC COATINGS

Sole authorized representative for Belzona Polymeric Limited, UK, providing protective coating, repair and maintenance composites and performance enhancement solutions for industrial / marine requirements and rubber lining solutions. Sole authorized representative of Superior Products International II, Inc. (SPI), a leading developer and manufacturer of technologically advanced, environmentally friendly, energy-efficient coatings for a range of industrial, petrochemical, commercial and residential applications.

MATERIAL HANDLING SOLUTIONS

Exclusive agency agreements with Italkrane s.r.l, Italy; KULI Hebezeuge, Germany; Harrison Fabrication, UK; and VETTER Fordertechnik, Germany; to provide standard and explosion proof cranes, hoists, rail mounted gantries, rubber tiered gantries, JIB cranes and tailor-made applications along with service and maintenance for all material handling equipment.

PUMPS

Supply and Installation of ESPs (Electrical Submersible Pumps) from CRI, India.

UTILITIES & WATER TREATMENT

Supply and installation of water treatment plant, steam and energy audits, steam trap calibration and supply of boiler and water treatment chemicals. Operation and Maintenance of STP, RO and desalination plants.

ELECTRICAL SERVICES

Rewinding services (Induction, LT/HT, DC up to 1000 Hp, Alternators up to 1000 Kva), dynamic balancing up to 16 tons, complete overhauling of motors and onsite overhauling.

MARINE SERVICES

Construction of concrete & steel pontoons, pile guide, gangway bridge, repair and maintenance of jetties & pontoons, Marine growth control, Marine loading arms, Marine Buoys (IALA approved), lighthouse, Fenders, Ship lift systems, repair of piles, fabrication of piles.

ELECTRICAL & INSTRUMENTATION

Supply and Installation of Electrical components, cable pulling, commissioning of electrical systems, SCADA, PLC, Building Management Systems (BMS), automation.

As a leading provider of diversified engineering and contracting services to the onshore and offshore oil & gas and renewable energy industries, IDTEC has been growing steadily since being established in Oman in 2005 as a joint venture between Bentec GmbH & Al Sulaimi Group Holding. Benefiting from Bentec's long-standing reputation and worldwide experience as German high-quality manufacturer and API-authorized repair shop for drilling equipment, we are located at Nizwa PIEIE and provide local and regional customers with first-class services.

Business

IDTEC carries out professional and safe installation, maintenance and repair of all kind of drilling equipment like masts and substructures draw works, mud pumps, rotary tables, Elmagco & Parmac brakes, top drives, swivels, hoisting & travelling equipment, etc.

Facilities

IDTEC's new fully equipped Oilfield facility can cater for all types of oilfield repair needs. Built on 100,000 square meters, the facility is located close to the oilfields to ensure quick turn round time on equipment repairs. The IDTEC plant has the following facilities.

MECHANICAL SHOP

Blasting machine; cleaning machine; 2500 psi hydraulic power pack; breakout and torque unit; 200-ton hydraulic press; 25,000 psi hydro test machine; various capacity lifting machines forklifts and cranes; high pressure washing machine.

STEEL FABRICATION AND RIG UP YARD

For fabrication of mud tanks system, drilling mast, substructure, steel structures and pipe components.

STEEL FABRICATION SHOP MACHINERIES

Engine Shop Assembly and repair works with 20-ton overhead crane plus load bank and workbench

Electrical Shop Assembly and repair works with 10-ton overhead crane plus workbench

Machine Shop Various lathe machines, milling machine, radial arm drill, union boring and milling machine, metal spray machine

Preservation Sandblasting; separate roofed workshop with 20-ton trolley systems; various coating components with all current painting systems

Quality Control Shop Positive Material Identification machine, harness test machine and documentation archive

Rigging Shop Wire slings and other accessories available to lift up to 50 tons

Hydro Test Shop Hydro test unit, maximum test pressure 25,000 psi in a fully covered shop

Hydro Washing High pressure pre-washing units

Open Yard Space The open spaces are available for three drilling rigs that can be raised on separate pads

Oryx Metal Industries LLC (OMI) is an international manufacturing company supplying semi-trailers, rigid bodies, storage tanks, pressure vessels & heavy steel structures to construction, logistics, defence as well as oil & gas sector in the Sultanate of Oman and abroad. Established in the Sultanate of Oman, OMI is the leading trailers manufacturing company in Oman and one of the major players in the Gulf and the Middle East. OMI is specialized in the design, development, and assembly of various semi-trailers, rigid bodies and on-demand heavy moving equipment.

OMI is forging ties with major international suppliers and customers extended over Europe, Africa and the Middle East. Moreover, technical partnerships established with major European trailer manufactures, add to OMI's international exposure. OMI can thus combine its international know-how to its local connections to contribute to the Sultanate's development.

Relying on an experienced management team and a highly skilled workforce, in total synchronization with design and plant engineers. OMI offers first rate products with the latest metal industry technology, from improved 3D Designs, state of the art CNC machinery, to semi-robotized welding techniques. Investing in both local and expatriate labour force, OMI follow stringent scales in selecting its employees based on both academic and experience. OMI's product range satisfies the needs of truck dealers, contractors, bulk and liquid transporters, municipalities, oil & gas sector and the army: this include tippers, tankers (water, fuel and bitumen), flatbeds, general cargo trailers, garbage compactors, car carriers, low loaders, storage tanks, pressure vessels and bulk cement silos among many others.

About Wals

WALS Energy is an Oilfield Services Company based in Muscat. They currently serve contracts with the Major Oil Companies in Oman. Their operations cover Oil Fields throughout north & south of the Sultanate. They maintain high standards for quality, safety & professionalism yet continue to offer clients competitively priced solutions. WALS Products & Services cover Upstream Operations (Drilling - Completions - Well Services).

SUPPLEMENTAL OFFERINGS

The complex environment of the Energy industry leaves you with every right to require World Class Technology, Service & Reliability. WALS Energy realized this very fact and has teamed up with Industry leaders to bring the Solutions that meet modern demands. Along with their partners, they present to green technology backed up by a professional team committed to addressing the business requirements for water treatment.

HEALTH & SAFETY COMMITMENT

WALS commitment is to adopt a sound HSE policy putting Safety first in an effort to prevent injuries at work. Their commitment extends to perform duty towards the environment as well. Their proactive measures include Job Procedures & Checklists like:

- Maintaining up- to- date employee safety certifications
- Technical training/certifications
- Personal motivation
- Processes development

Qurum Technical Company established in 2010 in the Kingdom of Saudi Arabia (Riyadh & Dammam) specializes in welding-cutting & Automation, Industrial equipment viz. Air Compressors, Power Generators & Foundation & Piling Tools, Catering to various industries, including oil & gas, fabrication & construction. The company represents some of the world's leading brands in the industry bringing in the latest technology and expertise for the benefit of its customers. Backed by a team of professional and trained sales and service team, the company strives to offer excellent services & support for the products it markets. Customer focus and commitment are some of the major attributes the company lays emphasis on to build a strong identity as a leading player in the region.

SCOPE

Welding Products – Distribute Shindaiwa dual welder generator, Lincoln Electric Bester , Askaynak welding consumables and inverter, Time welding machine from China TBiMig guns, welding hard automation and Tig Torches and Welding accessories.

Air Compressors- Represent Elgi compressors, supply of Diesel (Trolley /Skid mounted), Electrical powered screw and reciprocating type, drier, receiver tank, line filters and parts.

تيك انتر ناسيونال (ش.م.م)
Tech International LLC

Tech International LLC

Tech International LLC has been serving the industry of United Arab Emirates since 1986 and has grown steadily to become one of the leading and reputed distributor of Welding and Cutting products, Surface Preparation and Automotive Workshop / Garage Equipment. The company offers the latest cutting edge technology from across the globe and place the renowned and high quality international brands within the reach of clients in UAE.

Divisions:

WELDING PRODUCTS

Welding Products represent renowned brands like Shindaiwa – Dual Welding Generator, Bester- Lincoln Electric Welding Rectifier and Askaynak – Lincoln Electric Electrodes, Polysoude – Orbital welding and TBI- Welding Torches and other welding products

CUTTING PRODUCTS

Cutting Products represent brands like Wachs – Cold Cutting and Beveling, ProArc– CNC Cutting and Drilling, HGG – Pipe Profiling, Kjellberg – Plasma Cutting and Arcbro – Portable CNC Machine

AUTOMOTIVE EQUIPMENT DIVISION

Automotive Equipment Division represents world's leading automotive and garage equipment manufacturers and is a one-stop-shop for garage owners, vehicle enthusiast and technicians, car wash and lube service operators, tyre-shop operators etc. It is well equipped to offer state of the art machinery and service support.

It represents top brands like Hunter – Alignment Systems, Wheel Balancers, Tyre Changers & Alignment Lifts, Rotary – 2/4 Post Lifts, Elgi –Electric Powered Screw Air & Reciprocating Compressors, Orion – Lubrication Equipment, Chief – Collision Repair, Wash world – Car Wash, Automotive and Industrial Paint Booth and other garage equipment products.

Today, Tech International LLC has grown to be a leading player in the region. The reputation and success of the company has been earned and undoubtedly attributed to its commitment to customer satisfaction, professional management and a team of dedicated factory trained engineers and technicians.

It's a privilege to introduce world leading alliance under MUSCAT WATER LLC to provide world class water treatment technologies.

MUSCAT WATER LLC is a coalition of The Desalination experts, Aqua Swiss AG of Switzerland, with world's leading desalination technologies and Al Sulaimi Group Holding - a leading Omani Group with expertise in various engineering branches for four decades and specializes in seawater intakes, water network, water plants O&M services as well as fabrication for the water and oil industry. MUSCAT WATER branding provides a unique platform for leveraging the growing water needs in the Sultanate.

The Sultanate of Oman lies in an arid region of the world, but due to its size and the configuration of its topography there are considerable variations of climatic conditions within the country. Only in the extreme south where the seaward facing slopes of the mountains and the coastal plains have the benefit of light summer monsoons. Owing to the marked variety of terrain and scattered nature of the population distribution, water management in Oman produces various challenges in different regions.

In order to meet water challenges due to shortages in water production and distribution problems, Muscat Water LLC, has been founded that will bring drinking and potable water at very competitive prices leveraging the unique differentiating technologies. Moreover, Muscat Water brings a high local Omani content, and develops significant in country value through the deployment of Omani manpower and local manufacturing capabilities in its projects.

The founders of the company are the leading experts of their fields and this collaboration brings hundreds of year's manpower experience to make Muscat Water LLC as the leading water company in Oman.

Aqua Swiss AG is a Swiss EPC company owned by the Larive Group of Holland. Our main focus is on MENA markets and very rapidly our offices have expanded across Middle East. We have a regional office in Dubai, a JV company in Saudi Arabia and representative offices in Kuwait and Dammam. Aqua Swiss owns world's leading technology in Seawater Reverse Osmosis and Thermal Desalination that gives it the competitive advantage in producing desalinated water with lowest energy consumption. The company is further strengthened by a team of leading industry experts (300+ man-years of expertise) in the field of desalination and water treatment.

AquaSwiss implemented the Quality System which has been approved for ISO 9001-2008 certification, guaranteeing a professional and efficient vendor to client relationship and approved procedures in place for each aspect of project realization from the initial design to the opening of potable water tap.

SJ Abed & Al Sulaimi Catering Group LLC

A joint venture with the foremost industrial caterer in Africa/ Asia – S.J.Abed General Enterprise Ltd. It has effective operations in Nigeria, Ivory Coast, Guana, Angola, Sierra Leone, Iraq, Syria, Lebanon, and Sultanate of Oman.

Recognized as a leading industrial catering company providing exceptional quality service to its clients. In Nigeria we are major suppliers of catering services to the onshore, offshore, island and swamp oil & gas operations. Our clients here include the Nigerian National Petroleum Company, Shell Petroleum Development Company, ExxonMobil, ChevronTexaco, Agip Oil Company (affiliate of ENI of Italy), Total, Elf, Nigerian LNG and OKLNG. It also owns and manages the Camelot Group of Guest Houses in Nigeria.

SJ Abed has won several International Quality & HSE awards and have maintained enviable safety records in all their operations. It is an ISO certified Company and are HACCP Certified in all our operational locations. The Company is registered in Ministry of Oil & Gas (MOG) and with Oman Society for Petroleum Services (OPAL).

The company has been awarded a multi million dollar contract from Petroleum Development Oman [PDO] for the construction of 2 Major multi-unit Permanent Accommodation for Contractors [PACs] and provision of catering, laundry, janitorial, general maintenance and integrated facility management services in Marmul(A) and Lekhwair concession areas. These PACs were successfully commissioned in 2011 and are operational until 2044. This is a design, build, own & operate project. This project has provided hundreds of employment opportunities for professionals as well as skilled and unskilled workers from Oman and internationally.

They have extensive experience also in industrial kitchen, bakery, cold rooms / chillers & laundry equipment supply, installation, commissioning and maintenance.

They represent major European industrial kitchen equipment manufacturers. Clients, irrespective of location are guaranteed very high quality standards in provision of our services. They are also fully dedicated to professional ethics and will never consciously provide substandard service.
